General Sessions

The Child Development Trail

Child development is a journey where milestones mark forward progress and red flags signal areas where extra caution is required. While every child's path is unique, we can use a general overview of the terrain to help us guide children along the way and assist them when they struggle. (1 Clock Hour)

Break: Resource Booths

Visit with local vendors and organizations that provide resources and services to assist you in your child care center. (1/2 Clock Hour)

Curriculum Enrichment

Providing curriculum in your centers allows you the opportunity to go above the minimum standards. Learn how to incorporate engaging literacy activities in your classroom from our guest speaker, Rhiannon Graham from the Hood County Library. (1/2 Clock Hour)

Who do you think you are?

Why do you think you are? Who do people think you are? You are a professional! Let's make some noise about our profession! Let's explore together what it means to be seen as a professional. (1 clock hour)

Director Owner Track

Minimum Standards

Understanding the minimum standards, changes and ways to reach achievement within your child care facility. (1 clock hour)

Nutrition In Children

Helpful tips to assist you to create nutritious meal plans within your child care center. (1 clock hour)

Interviewing & Hiring:

Finding the Right Fit

The most important role in the center is the caregiver. Yet the hiring process for this critical role is often rushed. Recruitment of quality staff is challenging and takes time and effort. The director must find a balance between meeting the pressing demands of enrollment and ratios with finding the right caregiver to fill the position. In this training, we will discuss how to pro-actively hire talented teachers that will add to the quality of the program. We will learn best practices for managing the labor budget, hiring for attitude and training for skills, and creating a culture of quality. (1 clock hour)

Track—Rotation 1

Maintaining a Healthy & Safe Environment

We will be providing child care providers with the knowledge and tools to analyze the hazards and threats at a site, develop a plan to address these hazards and threats, and implement processes to update and practice the emergency plan. (1 clock hour)

Stress Management

Something we can all relate to: stress. Being able to manage healthy and unhealthy stress has an effect on your ability to be a successful professional. Learn effective strategies to utilize in your role as child care provider and in the classroom to manage stress. (1 clock hour)

We Need to Talk

If you're reading this, then you already know language is important! Using the tools we'll explore in this session, you can help young children conquer the milestones along the path to language development. (1 clock hour)

Track - Rotation 2

Coping Skills and Self-Regulation

Coping mechanisms are first developed in the early childhood years. Being educated in the strategies to help a child in developing coping skills can create an opportunity for the child to learn how to self-regulate. (1 clock hour)

We Need to Talk
